

ENVIRONMENTAL TRAINING

Introduction: This qualification enables learners to identify and evaluate occupational safety, hygiene and environmental factors, in occupational environments, which may have a detrimental effect on the health and safety of learners in such environments. Learners credited with this qualification are able to perform essential measurements and functions that promote a culture of health and safety in occupational environments. The qualification is designed to be flexible and accessible.

**Minimum of 10 learners,
Maximum of 15 learners per
course**

SAQA unit standard ID number – 48804 (Level 2)
